

Blogs, CoPs, Open Education

George Siemens

www.elearnspace.org

Blogs

- Dialogue, informal, tools of knowledge/learning expression/creation
- RSS as a means to share learning objects
- Maricopa, CAREO, EDU_RSS
- Problem – archiving
- Trend – unmistakable – create, share
- Create connections...no one right way – many ways – but one connection

CoPs

- Simple, social
- Self-organized
- Share and create knowledge together
- Decentralized, disorganized – the fertile grounds of innovation
- Network (not content) is king!
- Learning modeled as we learn best

Open Education

- Pay for the web one page at a time?
- Alternative
- Tools – geared to end-user
- Learning innovation doesn't happen in ivory towers
- Follow a web-like model
- Use existing tools/infrastructure
